PERSONAL PROJECTS

Disney Clone (Web App) (09/2023 - 12/2023)

- Implemented a Disney Clone website using HTML, CSS, and JavaScript to replicate the aesthetic and functionality of the Disney+ streaming platform. Leveraged Node.js for server-side scripting and utilized the Tailwind CSS framework for efficient styling and layout design.

Fill-The-Hunger (01/2024 - Present)

- Led the development of "Fill The Hunger," a platform aimed at connecting restaurants with non-governmental organizations (NGOs) to facilitate the donation of surplus food. Leveraging web technologies and a collaborative approach, the project addressed the critical issue of food wastage while supporting those in need.
